to view this important subject in a similar light it would be not only greatly to the in my24

than the course they have beretofore pursued in relation to this subject. The Chronicle says: "The statement of the Postmaster General,

that the Pacific Railway scheme was looked

upon with favor in England, and that a suc-cessful result of Sir Hugh Allan's mission was looked to, will be received with much gratification by the friends of that great na

tional undertaking. And those friends should embrace every true Canadian worthy

of the name. It would be a thousand pities that a work so vast, and of so thoroughly na-

amongst the nations of the world, should be for one moment obstructed through party differences. To make such a work the foot-

ball of party politics, and to endeavor to make people believe that it is something quite different to what it really is, is nothing

THE REGATTA.

Saturday last, the fifty-fourth anniversary of our most gracious Queen's natal day, dawsed upon the loyal city of Victoria under Phæbus shone forth in all his glory to honor the name of one beloved by thousands, and a oft sephyr ever and anon tempered an atmoshere which would otherwise have proved the sports which were set down upon the the festive day. At grey day-break the city which streamed from every conceivable flagresolving to do justice to this annual holiday whilst temporarily accommodating their customers, as the day were on, closed their

doors to the outer world. The regatta was the all important attraction of the day and-thanks to the energetic committee of management—proved a perfect suc-cess. Towards noon the people flocked out is the Gorge, by land and by water, the leary stables being stripped of all their deck in trade by clamorous pleasure seekers, and the steam tug Leviathan towing hundreds dethers, equally intent spon sojoying them-sives, to the picturesque scene of the re-sits. At 12 o'clock the squadron stationed at Esquimalt round forth a toyal salute; and st I o'clock thousands of people dotted the canks of the Gorge, and its waters, every one apparently intent upon making the most of a opportunity which presents itself in such a happy form, but once a year. Professor Schaffer's band was stationed high up on the bill in the vicinity of the little bridge which crosses the proverbial rapids, and just as the preparatory gun warned the competitors in the first race to take their places under the starting line, it struck up one of those invigorating melodies for which it is justly selebrated. In the meantime the assembled multitude had taken up positions favorable for wifnessing the races, and the popping of corks and devastation of things good for the climate of British Columbia has not lost one Hugh Allan and the Government.

The prevailing opinion is, that in myriads, and no better demonstration of their appreciation of the " whites" as a race stibe proceedings.

h would be useless to try to depict the rails of each race as it took place, it must erefore suffice our aquatic friends to refer to the appended list of the competing crews. Under the able efforts of Mr. R. Brodrickas old ear-the boats got away, without exception, to good starts, and the decisions of the evidence before Capair Gooper, who acted as judge, and the Government. Lieut. Brigge, R. A great number of the fair sex and ther escorts then repaired to the dencing pavillion and kept up the festivities of the occasion until the straine of "God Save the Queen" reminded them that shortly the Sabwould be encroached upon; and thus a very pleasurable day, one and all wended their way home to the city, hopefully looking forward to the 24th of May, 1874.

The committee for the celebration of the 24th at New Westminster, allotted to the Indians a large share of the programm in which to compete along with their white brethren. The magistrate, Mr. Bushby, would address them on Saturday last.

BUGGY ACCIDENT .- Two gentlemen more bent on the pleasures of fishing and bunting than in witnessing the regatta sports, drove out to Metchosin in a buggy on Saturday, and tied up at Peatt's. Mr. Peatt, so we are informed, biched up the same trap, and with his daughter drove into town on business, and it would appear met with an accident whereby the young woman, who is not strong was much shaken. When on their return home, and whilst crossing the first bridge first boat, Mr. Jay winning all the way, just from the city, on the road towards bome, as he pleased. His style was the theme of more serious accident befel them. Their more serious accident befel them. Their conveyance collided with a passing wagon, tearing away one of the wheels, and frightening the horse, who ran off into the woods be-youd the tannery. The remainder of the buggy was picked up in the ravine close to the tannery, and the occupants of the convey ance were taken care of by the neighbors in

the vicinity.

THE SAN JUAN MURDERS .- Mr. Murphy, of San Juan, who has been active in seeking to ferret out the assassins of Mr. Dwyer and his wife, received a reply on Saturday from the was decidedly the most exciting affair of the day. The first prize fell to a Fort Rupert ten, who had been conched by Mr. Thomas Lagiton; and three other cances came in "seck and neck" for the second prize. The money was in each instance well earned.

White, received a reply on Saturday from the Governor of Washington Territory, to his telegram forwarded previous day. Governor Ferry wants the names of the supposed murduers, and would send across to-day a requisition for their rendition to the United States authorities. We would here remark The swimming match turned out a good that whilst all of us hope the slayers of the thing for Holton of H.M.S. Tenedos, and Dwyer family will be brought to justice, still Dwyer family will be brought to justice, still it must not be forgotten that the rights of those upon British soil should not be jeopar-dized in an overweening desire to deliver to United States officers suspected parties now lying in our city prison. Let every justice and fair play be accorded them.

THE DINNER AT GOVERNMENT HOUSE .- In response to an invitation of His Excellency to dinner at Government House on the 24th, A large number of persons spent their hol-lay at Macauley's Point; others again drove invitation. Several gentlemen, unable to be out to Cadboro Bay; some to the several present, forwarded written apologies for lakes and to various of the lovely nooks to be found in any direction from town. The city throughout the day appeared almost like and foreign Consulates were present.

FROM NEW WESTMINSTER. - The following passengers arrived down per the steamer Euterprise on Saturday last, also a Cariboo mail he committee, Mr. McCutcheon chairman, and express: Mrs. Young, Mrs. Franklyn, Mrs. for the removal to Chilfwhack, the Episcopal Church at Douglas, which has long since then closed, Douglas being one of the places of the past in the history of British Columbia.

Omineca Correspondence.

Tatta, 23rd April, 1872. EDITOR STANDARD :- The difficulty of communication has prevented me from addressing you of late, for it has been the pleasure of the Government to entirely ignore this part of the country as much as though we did not belong to British Columbia at all, for we have no mail or express in this direction, neither have we any protection in the way of With maniac laughter, deep and low, police or justice, and we appear to be recognized only when the collector comes round to collect our licenses and taxes, which we are asked to pay notwithstanding we get no return whatever; nevertheless this is

THE ROUTE PREFERRED BY NINE-TENTHS of all the men who come and go to the Omineca country. In fact if all were compelled to travel nearly one thousand miles through that beautiful agricultural district, where they another dollar for the use of a bed that still retains the smell of those travellers who are abend of hir, "nasty though not cheap," few would go to the Omineca country at all; consequence of Col. SEEENA AND NAAS RIVERS exist, and men continue on those ways to Omineca at all times of the year; in fact there is quite sufficient travel this way to justify the Government in providing for our protection if not for the improvement of the trails; besides there is enough revenue collected on this route to justify us in expecting some consideration. But what is the fact? Why while there is over \$40,000 appropriated FOR ROADS LEADING TO CARIBOO.

the Government were pleased to make an appropriation of \$7000, "trails, Cariboo and Omineca." Now where is the justice, sense or reason in coupling this country with Cariboo, which is more remote from here than Vancouver Island. No one travels that was for it is entirely out of any way from here By the election laws men have no votes to poll on this route, so there was no one to speak a word for us in the Legislature. But if the people of Victoria were alive to their own interests they would promote the Skeens route, which is now so well known that it cannot be killed out, let it be neglected ever so much by the authorities.

THE OMINECA COUNTRY is bound to be a good mining region for many gating the Huntington charges against Sir with noisy protestations by the left. When years to come, and will attract miners when the thurst had somewhat subsided, Baran-Cariboe is abandoned; in fact there is no doubt about its mineral wealth extending over vast extent of country; but, Mr. Editor, see by your paper people are often wondertribune, and declared that France would not ing why the mines of British Columbia do remain a moment with the government, not- not attract more miners? shrieks to his mother sea, below The hopeless flight of human prey; And o'er the waste of water broods The dreariest of Nature's merchants.

A sudden blenching strikes the sea To windward, and the fearful twang Of Neptune's trident, hums a glee Of might and wrath and agony, Far where the breakers boom and clang; Like flying shrouds from rifled graves, The foam lies gleaming on the waves Vhence ocean's slumb'ring furies sprang. The stricken billows lean away
With trampling thunders in the gale,
And staggering blindly to the fray
The frail ship starts each bolt and stay;—
Her cordage shricks and with a wail
She plunges downward in the gloom
Of roaring gorges hoarse with doom—
And none alive may tell the tale!

What thoughts there came of home and friends, What thought there came of nome and free what prayers were said, what kisses thrown—Were lost upon the wind that lends Its borrowed wealth no more, and blends A sigh of trouble with the mona That sadly haunts the restless waves,

They sailed one day and came-no more! All else is wrapt in mystery: The surges kneel upon the shore And tell their sorrows o'er and o'er; And still above the Northern sea, A pensive spirit, pale and slow, The gray gull waseling to and fro Keeps watch and ward eternally.

#### The Reason Why.

EDITOR STANDARD :- The question is often sked, why so many persons emigrate to the United States in preference to other countries. Many reasons are given, but the most important one is never mentioned, namely that there is no country in the known world where a poor man who is steady, careful and industrious, can so easily improve his condition in life as in the United States, and there are none who know it better than the emigrants themselves. And they act accordingly and during the thirty years which I have lived amongst the American people I have heard great numbers from nearly every country in Europe express the same opinion. Son people who are prejudiced may not believe it, some may deny it, but they can give no fact to dispreve it. And the reason why it is so, seems very strange to explain. The American earn it. Here if a person is wide awake, industrious and careful, he will very easily After further debate, which was conducted all winter, and are there still, and though gain possession of some of this wealth which is so freely scattered about. BANK OF BRITISH COLUMBIA. THE COMPANY IS FORMED FOR the purpose of acquiring the property known as is Belmont Factory, situate on Esquimatt Harbor, and he business carried on therein, consisting of Tanning, and Boot and Shoe Manufacturing, and of continuing

the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two The Boot and Shoe Department has for the past we years been carried on under the management of Mr. switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Taunery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of abor.

The Water Power which is utilized for the conduct of Works is all that could be desired, and could readily be The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's service as Manager of the Werks will be

The Barque Almatia having been, on the night of the 22nd March, 1873, stranded on the North-West end of Gossip Island, while in charge of Pilot Alexander McKinnon, and the Plot Board having considered the evidence adduced as to the causes which led to the disaster in question, find that the said Pilot stranded the Almatia by attempting to take her through Plumper Pass when he was not

article.

The sales for 1872 amounted to nearly \$30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871 was about \$100,00, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertakner.

ing the entire field for the operations of the undertakage.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this 'ispariment is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c, is addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative
